關於桃園流 TAOYUAN in FLOW

桃園，存在於流動之間

在機場轉機，在高鐵換乘，在高速公路上疾行——人們穿梭其間，卻未曾停下來看見這座城市如何在移動之中生成自己。

水在台地之間流動，留下埤塘與河道的紋理；飛機起降、列車穿梭，城市的節奏自移動之中展開。

桃園並非靜止的目的地，而是一座在往返之間持續形成的城市，在每一次經過裡慢慢長出輪廓。交通帶動連結，連結促成交換，資源、資訊與產業在不同方向之間快速流通，形塑出通透而高效的日常運作。

有人在此抵達，有人從此出發，使城市保持開放與彈性，成為台灣與世界之間的重要接口。

行進帶來改變，產業轉型與科技發展重塑生活節奏；多元文化在日常中交織，多方力量逐步匯流，使新的城市樣貌在更新中成形。桃園不刻意追逐風格，而是在創新、智慧與循環之間長出節奏；設計梳理流動的脈絡，讓分散的力量在行進之中聚集成勢。

當所有匯流在此交織成形，桃園不只是承接移動，而是開始定義移動；不只是回應變化，而是生成方向

——讓潮流在此發生。

Taoyuan exists in flow

Transferring flights at the airport, changing trains at the high-speed rail, and speeding along the freeways—people shuttle through yet rarely pause to witness how this city has shaped itself in the midst of constant flows and movements.

Water flows through the tablelands, leaving behind a tapestry of ponds and waterways; airplanes ascend and descend, trains weave back and forth, and the city's rhythm unfolds through movements.

Rather than a static destination, Taoyuan is a city continuously molded by transit, slowly acquiring its contours with every passage. Transportation facilitates connection, and connection fosters exchange. Resources, information, and industries circulate rapidly in multiple directions, creating smooth and efficient daily operations.

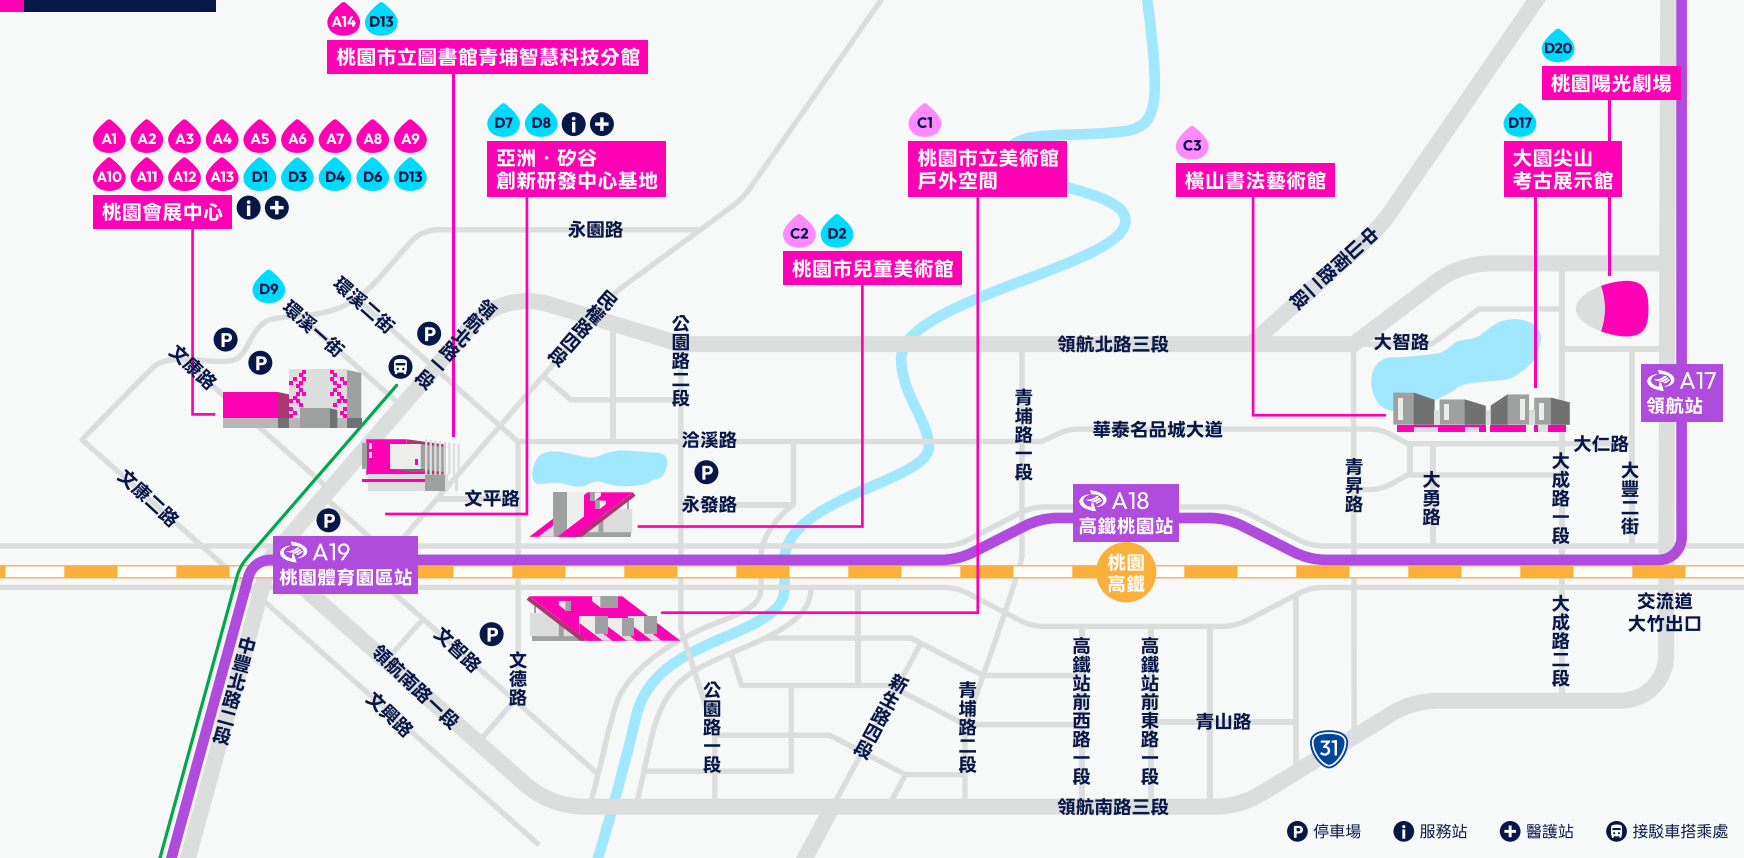

Some arrive here while others depart from here, keeping the city open and adaptive as Taiwan's vital interface with the world.

Movements bring change, and industrial transformation and technological development reshape the rhythm of life; diverse cultures intertwine in daily life, while multiple forces gradually converge, allowing a new urban landscape to emerge from constant renewal. Taoyuan does not deliberately chase a style, but instead cultivates a rhythm rooted in innovation, intelligence and circulation; design traces the threads of these flows, allowing dispersed forces to coalesce into momentum in the midst of movements.

When all currents converge and intertwine here, Taoyuan ceases to merely accommodate movements, but begins to define them; Taoyuan not only responds to change but also generates directions—becoming the place where trends emerge.

Variations and Dialogues in Writing: Calligraphy Meets Design

橫山書法藝術館 Hengshan Calligraphy Art Center

書法與設計以文字造形為核心，在傳統與當代、手寫與科技之間展開對話。「書寫的變奏與對話：書法・設計的當代語境」匯聚臺、港、澳、中、日、韓創作者，以多元媒材重新拆解、轉譯漢字，展現書寫變奏與再生的生命力。

"Variations and Dialogues in Writing: Calligraphy Meets Design" explores the visual form of characters at the intersection of tradition, modern design, and technology. Featuring creators across Taiwan, Hong Kong, Macao, China, Japan, and Korea, the exhibition deconstructs Chinese characters through diverse media, revealing the vitality of writing as it continuously transforms and renews itself.

原生力

oi ha hai

Pyasan 泰雅文化館 Pyasan Atayal Culture Center

桃園西部城市中擁有最多原住民人口，蘊含著豐沛的原民能量。本展借以阿美族語「oi ha hai」的意涵「靈啊！我在」，引領觀眾循著族人的生活與記憶，看見原住民族文化在當代持續發光的樣貌。

As home to western Taiwan's largest urban Indigenous population, Taoyuan fosters vibrant native cultures. Titled after the Amis ritual chant "oi ha hai" ("Oh Spirit! Here I am"), this exhibition explores the pull back to native roots. Tracing heritage, memory, and urban migration, it showcases how traditional culture continues to shine in modern life.

山城的客廳－家的工藝生活提案 Living Room Tour

Living Room of Daxi - Craft and Contemporary Living

大溪木藝生態博物館－大溪武德殿 Martial Arts Dojo, Daxi

大溪的工藝誕生於日常所需，每一件由在地師傅製作的器物，陪伴在地人的生活起居，並於日常使用之中，形塑出屬於大溪的民藝樣貌。本展以「山城的客廳」為主題，將家中最重要的交流場域，透過三種當代的生活情境與風格，看見大溪工藝如何轉化新生、走進家庭，重新想像工藝與家的關係。

Born from daily necessity, Daxi's craft traditions carry a unique local character. Themed "Living Room of Daxi," this exhibition presents three contemporary living scenarios to showcase local craftsmanship. It invites visitors to discover how Daxi crafts are reimagined for modern homes, inspiring new possibilities for everyday life.
